The powers at lower limit is generally fixed for repairs while a higher limit is fixed for purchase. I do not know if actually so many references have been made. However in these cases I see no objection to raise the limit to Rs. 1500/- in cases in which the requisition is to be made by the Department

SIR,

I have the honour to state that at present all expenditure exceeding Rs. 25/- in each case to be incurred under the heads " Materials and type ", "Electric power" and purchase of Machines" in the press budget has to receive the sanction of Government. As the minimum amount fixed is too low, frequent references will have to be made to Government even for incurring an expenditure of one or two rupees above this prescribed minimum of Rs. 25/-. Most of the items of expenditure to be incurred under these heads pertain to the repairs to Machinery and Electric fittings which have to be got done in the Central/Industrial workshop and the Electric laboratory respectively and are incurred when repairs are inevitable owing to breakdowns consequent on the wearing out or breaking of machine and electric parts. Sanction is generally accorded by Government as a matter of course in these cases. It has been found, however, by practical experience that applying to Government for sanction in such cases and waiting till sanction is received before any repairs or other work are put in tended with some amount of delay which can be avoided if the Superintendent is empowered to incur expenditure on such items up to and including Rs. 50/- in each case. This will save also correspondence of a routine character with Government.

Government have recently raised the powers of the Superintendent in regard to the purchase of press Stores by enhancing the limit of Rs. 25/- to Rs. 50/- in G.O. No: G. 12705-6/P.&.S. 85-30-2. dated the 29th June 1931. Similar enhancement in the case of repairs

repairs and purchase of small parts to Machinery and Electric fittings is now sought for and may, in my humble opinion, be conveniently granted.

If this proposal meets with the approval of Government, sanction may be kindly accorded empowering the Superintendent, Government Printing, to incur expenditure on repairs and purchase of spare parts to Machinery and Electric fittings of both the Government Presses up to and inclusive of Rs. 50/- in each case.

I have the honour to be,
Sir,
Your most obedient Servant,

Superintendent,
Government Printing.
